PROFESSIONAL SUMMARY

Detail-oriented professional transitioning from a healthcare data background into data analytics, with around 4 years of experience reviewing, validating, and reconciling large volumes of structured data in high-compliance, DHA-regulated healthcare environments. Skilled in SQL, Power BI, Tableau, and Excel, with hands-on project experience building dashboards for revenue cycle, HR, and airline analytics. Strong foundation in data accuracy, DHA and CMS/HIPAA regulatory compliance, and cross-functional reporting, now applying analytical and visualization skills to data analyst roles.

CORE SKILLS

- SQL: Querying | Joins | Aggregation | Data cleaning | Window functions | CTE
- Power BI: Dashboard design | DAX | data modeling
- Tableau: Interactive visualizations | Storytelling with data
- Microsoft Excel: Pivot tables | Lookups | Reporting
- Data validation, reconciliation, and quality assurance
- DHA, HIPAA, and CMS regulatory compliance in healthcare data handling
- Stakeholder reporting and cross-functional collaboration

PROJECTS

Hospital Revenue Cycle Management (RCM) Dashboard

- Built an interactive Power BI dashboard analyzing hospital revenue cycle performance, covering claims submitted, denials, and collections.
- Designed DAX measures and visuals to help stakeholders track reimbursement trends and pinpoint revenue leakage points by department.

Repo Link: <https://github.com/nandha-kumar-git/Hospital-RCM-PBI>

HR Analytics Dashboard

- Designed a Power BI dashboard tracking headcount, attrition, and workforce trends across departments to support HR decision-making.
- Built dynamic filters and drill-through views so HR stakeholders could analyze attrition by tenure, department, and role.

Repo Link: <https://github.com/nandha-kumar-git/NovaForge-HR-PBI>

Airline Analytics Dashboard

- Developed a Power BI dashboard visualizing airline performance metrics, including delays, routes, and booking volumes.
- Created visual summaries to identify on-time performance trends and high-traffic routes for operational insight.

Hospital Data Analysis (SQL)

- Wrote SQL queries to analyze hospital operational data, including patient volumes, admissions, and billing trends.
- Used joins, aggregations, and filtering to extract insights supporting operational and financial reporting.

WORK EXPERIENCE

Medical Coder — NMC Specialty Hospital, Dubai, UAE	<i>Mar 2025 – Present</i>
- Assign accurate ICD-10-CM, CPT, and DSL codes for outpatient encounters in line with DHA coding and documentation standards. - Review clinical documentation for completeness and accuracy to support correct charge capture and minimize claim rejections from UAE payers. - Ensure coding practices remain compliant with DHA, HIPAA, and international coding guidelines to support audit readiness. - Coordinate with physicians and clinical staff to resolve documentation gaps and improve first-pass insurance claim acceptance. - Maintain data integrity across billing and reporting systems, supporting monthly reconciliation and management reporting.	
Multi-Specialty Denial Coder — AGS Healthcare	<i>Mar 2024 – Dec 2024</i>
- Reviewed and analyzed denied medical claims across specialties to identify coding errors and data discrepancies. - Resolved claim denials by appealing and correcting codes according to insurance guidelines, improving reimbursement turnaround. - Participated in coding audits and QA activities to maintain data accuracy and integrity.	
Medical Coder — AnnexMed	<i>Aug 2022 – Jan 2024</i>
- Reviewed outpatient and inpatient medical records and accurately assigned diagnostic codes in compliance with regulatory requirements. - Served as Single Point of Contact (SPOC) for the team lead, managing inventory tracking, task allocation, and workflow coordination. - Performed end-of-day (EOD) consolidation, including performance reporting and operational analysis for management.	

EDUCATION

B.Sc, Advanced Zoology & Biotechnology — Ramakrishna Mission Vivekananda College	<i>2018 – 2021</i>
Diploma in Medical Laboratory Technology — Stannis Institute of Allied Health Sciences	<i>2019 – 2021</i>

CERTIFICATIONS

- Certified Professional Coder (CPC) — AAPC - Data Analysis using Excel — Great Learning - Data Visualization using Power BI — Great Learning - Data Visualization using Tableau — Great Learning
